Teklad Bedding and Enrichment

1922 Irradiated Enrich Mix

Ideal non-human primate enrichment treat

Product Description

Envigo Teklad Irradiated Enrich Mix is a unique blend of highly-palatable ingredients designed to complement a well-balanced diet. Irradiated Enrich Mix is not to be fed as the primary diet component and should not exceed 15% of the total dry matter intake.

Shelf Life

Irradiated Enrich Mix should be stored in a cool, dry area, preferably below 70°F. If stored in a sealed container in these conditions, Irradiated Enrich Mix can be stored for up to nine months.

Packaging

Irradiated Enrich Mix is available in two convenient package sizes: 20 and 40 pound (9.07 and 18.14 kilogram) boxes.
